To whom it may concern:

I urge you to look at *proposed laws* **SB 650, HB 6848 and HB 6962** and oppose them. They will not make us any safer and give the ability for anyone to make a false statement about you and remove your second amendment rights.

There is no criminal out there that is going to follow these laws and this only limits legally owning citizens from being able to protect ones self and family.

Thank you
